☐ Continuation Sheet Attached

Brief Description of Arguments to be Presented:

Jaouen merely discloses a proton conducting membrane, not a hydroxide ion conducting membrane as claimed. Further, claim 11 requires that each electrode have an active layer that is in contact with the solid membrane and comprises an element for conducting hydroxide ions.

An interview was conducted on the above-identified application on _____

NOTE:

This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01). This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of substance of this interview (37 CFR 1.133(b)) as soon as possible.
